

Factsheet

weclapp GmbH, a subsidiary of Exact

About weclapp

weclapp is a cloud-based ERP platform for many industries to map and optimise business processes across companies and simplify day-to-day work. All data and processes can be accessed and edited from anywhere - all you need is an internet connection and a browser-enabled device. The range of functions of the business software can be expanded as required thanks to a large number of API interfaces and is almost infinitely scalable in terms of capacity.
